Reasons For Allowance

The following is an examiner's statement of reasons for allowance: Applicant's claimed invention differs from the prior art of record by specifically reciting a defect information management method/device having a control part/step for controlling the information storage device, wherein, when the error (referred to as defect in the specification/drawings see figs. 5-10 of the present application) detecting part detects an error in the track following information (referred to as servo in the specification/drawings see figs. 5-10 of the present application) while setting recording areas (referred to as formatting in the specification/drawings see figs. 5-10 of the present application) by the recording area setting part, interrupt processing is performed in which recording areas spanning from a recording area including the track following information having the error to a recording area including next track following information are replaced by other recording areas by performing a slipping process and recording area setting is restarted, wherein the slipping process continues sequentially through the last track in the information storage device.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
